

# Snap-Together Model Road Bike!

## "Instructions"

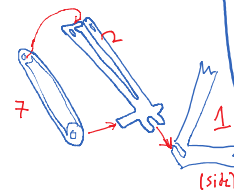

Have Fun! You may need some superglue and a knife to make things fit and stay in place.

1. Print it out!  
(or skip to step 2  
if this is a gift)

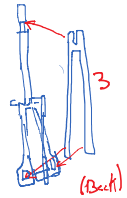

Print Settings:  
no raft or brim,  
100% infill.

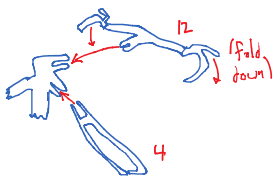

2. Attach the chain to the bottom tube, which then attaches to the main frame.

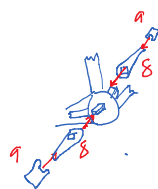

3. Attach the back tube to the bike.

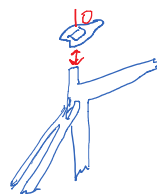

4. Attach fork and handlebars

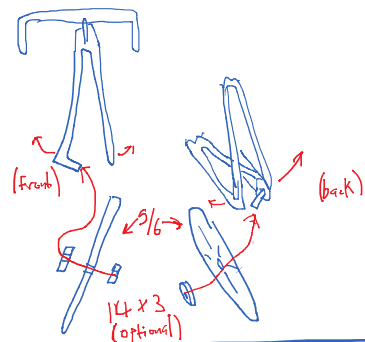

5. Attach cranks and pedals

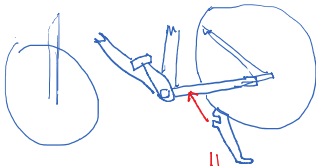

6. Attach seat

7. Pry apart axles & insert wheels. use spacers if necessary

8. Attach kickstand (or ditch it to save weight)

9. You are Done!

Congratulations! It should look something like this
